

Safety Data Sheet

SECTION 1. Identification of the substance or mixture and of the company / undertaking

1.1. Product identifier

Code: MAR003 MAR004

Name of the product: MARINE DISHWASHING TABS ALLIN1 28 & 48 PC

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description / Use detergent tablets for dishwasher machines.

1.3. Details of the supplier of the safety data sheet

Company UT EUROPE SRL

Address Via Scarsellini 119, 10° piano

District and Country 16149 Genova (GE)

Italy

tel. 0039/0106467 352

fax 0039/0104694 678

e-mail address of the responsible person ,

responsible for the safety data sheet: info@uteurope.it

1.4. Emergency telephone number

For urgent inquiries refer to Niguarda Hospital Milano, Poison Control Center 0039/0266101029

EE - Poisoning Information Centre 16662; when abroad: (+372) 794 3794

LV - Toksikoloģijas un sepses klīnikas Saindēšanās un zāļu informācijas centrs +371 67042473

LT - Aplinkos Apsaugos Agentura +370 5 2662808

SECTION 2. Hazards identification.

2.1. Classification of the substance or mixture.

The product is classified as dangerous according to the provisions of Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments). The product therefore requires a safety data sheet in compliance with the provisions of Regulation (EU) 2015/830.

Any additional information regarding risks to health and / or the environment are reported in the sec. 11 and 12 of this sheet.

Regulation 1272/2008 (CLP) and subsequent amendments.

Classification and hazard statements:

Eye Irrit. 2 H319

2.2. Label's elements.

Danger labeling under Regulation (EC) 1272/2008 (CLP) and subsequent amendments.

Hazard pictograms:

WARNING

Hazard statements:

H319 Causes serious eye irritation.
EUH 208 Contains subtilisin: may cause allergic reactions

Precautionary statements:

P101 If medical advice is needed, have the product container or label
P102 Keep out of reach of children.
P280 Protect your eyes and face.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue to rinse.
P337 + P313 if eye irritation persists: get medical advice/attention .
P264 Wash hands thoroughly after handling

2.3. Other hazards.

Based on the available data, the product does not contain PBT or vPvB substances in percentages greater than 0.1%.

SECTION 3. Composition / information on ingredients.

3.1. Substances.

Information not relevant.

3.2. Mixtures.

contains:

The full text of the hazard statements (H) is given in section 16 of the sheet.

SECTION 4. First aid measures.

4.1. Description of first aid measures

EYES: Remove any contact lenses. Wash immediately and abundantly with water for at least 30/60 minutes, opening the eyelids well. Consult a doctor immediately.

SKIN: Remove contaminated clothing from behind. Take a shower immediately. Consult a doctor immediately.

INGESTION: Drink as much water as possible. Consult a doctor immediately. Do not induce vomiting unless specifically authorized by your doctor.

INHALATION: Call a doctor immediately. Bring the subject to the open air, away from the accident site. If breathing stops, practice artificial respiration. Take appropriate precautions for the rescuer.

4.2. Most important symptoms and effects, both acute and delayed

No specific information is known about the symptoms and effects caused by the product.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Fire fighting

SUITABLE EXTINGUISHING MEANS

The means of extinction are the traditional ones: carbon dioxide, foam, dust and nebulized water.

**AL MARINE DISHWASHING TABS ALLIN1
28 & 48 PC****UNSUITABLE EXTINGUISHING MEDIA**

No one in particular.

5.2. Special hazards arising from the substance or mixture**HAZARDS DUE TO EXPOSURE IN THE EVENT OF FIRE**

Avoid breathing combustion products.

5.3. Recommendations for firefighters**GENERAL INFORMATIONS**

Cool the containers with jets of water to avoid the decomposition of the product and the development of substances potentially dangerous for health. Always wear full fire protection equipment. Collect the extinguishing waters that must not be discharged into the drains. Dispose of contaminated water used for extinction and fire residue according to current regulations.

EQUIPMENT

Normal fire fighting clothing, such as open circuit compressed air breathing apparatus (EN 137), flame retardant (EN469), flame retardant gloves (EN 659) and fire brigade boots (HO A29 or A30).

SECTION 6. Measures in case of accidental release**6.1. Personal precautions, protective equipment and procedures in case of emergency**

Avoid the formation of dust by spraying the product with water if there are no contraindications.

Wear appropriate protective equipment (including personal protective equipment referred to in Section 8 of the safety data sheet) to prevent contamination of skin, eyes and personal clothing. These indications are valid both for workers to work and for emergency interventions.

6.2. Environmental precautions

Prevent the product from entering sewers, surface water or groundwater.

6.3. Methods and materials for containment and remediation

Collect the leaked product and place it in containers for recovery or disposal. Eliminate the residue with jets of water if there are no contraindications. Provide sufficient ventilation of the place affected by the leak. Evaluate the compatibility of the container to be used with the product, checking section 10. The disposal of contaminated material must be carried out in accordance with the provisions of point 13.

6.4. Reference to other sections

Any information regarding personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage**7.1. Precautions for Safe Handling**

Manipulate the product after having consulted all the other sections of this safety data sheet. Avoid dispersion of the product in the environment. Do not eat, drink or smoke during use. Remove contaminated clothing and protective equipment before accessing the areas where you eat.

7.2. Conditions for safe storage, including any incompatibilities

Keep only in the original container. Store closed containers in a well-ventilated area away from direct sunlight. Keep containers away from incompatible materials, checking section 10.

7.3. Specific end uses

Information not available

SECTION 8. Exposure controls / personal protection

	UT EUROPE SRL	Edition n. 3 Edition date 23/11/2018 Printed on 23/11/2018 Pege n. 5/13 Replaces the revision: 2 (revised date: 16/01/2018)

Legend:

(C) = CEILING; INALAB = Inhalable fraction; RESPIR = Breathable fraction; TORAC = Thoracic fraction.

VND = identified hazard but no DNEL / PNEC available; NEA = no expected exposure; NPI = no identified danger.

8.2. Exposure controls

Considering that the use of adequate technical measures should always take priority over personal protective equipment, ensure good ventilation in the workplace through effective local aspiration.

For the selection of personal protective equipment, if necessary ask your chemical suppliers for advice.

The individual protection devices must bear the CE marking which certifies their compliance with the regulations in force.

AL MARINE DISHWASHING TABS ALLIN1
28 & 48 PC

Provide emergency shower with visocular basin.

HAND PROTECTION

If prolonged contact with the product is foreseen, it is advisable to protect the hands with penetration resistant work gloves (see standard EN 374). For the final choice of the work glove material, the process of using the product and any other products deriving from it must also be evaluated. It is also recalled that latex gloves can give rise to sensitization phenomena.

SKIN PROTECTION

Wear work clothes with long sleeves and safety footwear for professional use of category I (see Directive 89/686 / EEC and EN ISO 20344). Wash with soap and water after removing protective clothing.

PROTECTION OF EYES

It is advisable to wear tightly fitting goggles (see standard EN 166).

RESPIRATORY PROTECTION

Not necessary, unless otherwise indicated in the assessment of chemical risk.

ENVIRONMENTAL EXPOSURE CONTROLS

Emissions from production processes, including those from ventilation equipment, should be monitored for compliance with environmental protection legislation.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Solid State

Yellow white green color

lemon Odor

Olfactory threshold Not available

pH 10.3 - 11.3

Melting or freezing point 0 ° C

Initial boiling point Not available

Boiling range Not available

Flash point Not available

Evaporation rate Not available

Flammability of solids and gases Not available

Lower flammability limit Not available

Upper flammability limit Not available

Lower explosive limit Not available

Upper explosive limit Not available

Vapor pressure Not available

Vapor density Not available

Relative density Not available

Solubility soluble in water

Partition coefficient: n-octanol / water: Not available

There are no particular risks of reaction with other substances in normal conditions of use.

POLYETHYLENE

It degrades slowly at high temperature in the presence of air.

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of dangerous reactions

Unusual reactions are not expected under normal use and storage conditions.

10.4. Conditions to avoid

None in particular. However, follow the usual precautions with regard to chemicals.

10.5. Incompatible materials

Information not available

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental toxicological data on the product itself, the possible dangers of the product for health have been evaluated on the basis of the properties of the substances contained, according to the criteria provided for by the reference standard for classification.

Consider therefore the concentration of the individual hazardous substances mentioned in section 3, to evaluate the toxicological effects deriving from exposure to the product.

11.1. Information on toxicological effects

Metabolism, kinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Immediate, delayed, and chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

SECTION 12. Ecological information

Since specific data on the preparation is not available, use according to good working practices, avoiding to disperse the product in the environment. Avoid dispersing the product in the ground or waterways. Notify the competent authorities if the product has reached watercourses or has contaminated the soil or vegetation. Take measures to minimize the effects on groundwater.

12.1. Toxicity**DISODIUM CARBONATE, COMPOSED WITH HYDROGEN PEROXIDE (2: 3)**

ZINC SULPHATE EPTAIDRATE
NOT rapidly degradable

No one.

12.3. Bioaccumulative potential

Information not available

12.4. Mobility in the soil

Information not available

12.5. Results of the PBT and vPvB assessment

Based on the available data, the product does not contain PBT or vPvB substances in percentages greater than 0.1%.

PBT substances: none

VPvB substances: none.

12.6. Other adverse effects

nobody.

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, if possible. Product residues are to be considered hazardous special waste. The hazardousness of the waste that partially contains this product must be evaluated according to the laws in force.

Disposal must be entrusted to a company authorized to manage waste, in compliance with national and possibly local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be sent for recovery or disposal in accordance with national waste management regulations.

Recover if possible.

For the disposal of the uncleaned / reclaimed product or containers addressed to companies expressly authorized to manage waste (recovery or disposal of hazardous waste).

Cleaned / reclaimed containers must be disposed of / recovered as special waste.

Never unload the product in surface or underground water.

Where applicable, refer to the following regulations: 91/156 / EEC, 91/689 / EEC, 94/62 / EC and subsequent adaptation.

SECTION 14. Transport information

The product is not considered dangerous according to the provisions in force concerning the transport of dangerous goods by road (A.D.R.), by rail (RID), by sea (IMDG Code) and by air (IATA).

14.1. UN number
